

## 25 in. 90-Degree Quad Low Profile Bullhorn Mounting Bracket Tenon Adapter

### PRODUCT DESCRIPTION

The 90-Degree Quad Low Profile Bullhorn Mounting Bracket transforms singles tenon into four, simplifying the installation of up to four outdoor lighting fixtures on round light poles. Constructed from resilient steel with reinforced double-strength welds, this bracket is engineered to endure over time. Suitable for mounting on wood, steel, and concrete poles, it effortlessly fits onto a 2-3/8 inch OD tenon or light pole top.
