

64 in. 180-Degree Quad Linear Low Profile Bullhorn Mounting Bracket Tenon Adapter

PRODUCT DESCRIPTION

The 180-Degree Quad Linear Low Profile Bullhorn Mounting Bracket offers versatile installation options for outdoor lighting. Engineered with four 180-degree aligned tenons, it facilitates mounting four area lights with slip fitters. Tailored for a precise fit on 2-3/8 inch O.D. tenons or light pole tops, it securely attaches to wood, steel, or concrete poles. Commonly used in parking lots, floodlights, and shoebox fixtures, it provides durability and versatility for various outdoor lighting applications.
