

17 in. 90-Degree Quad Bullhorn Mounting Bracket Tenon Adapter

PRODUCT DESCRIPTION

The 90-degree Quad Bullhorn Mounting Bracket series offers a sturdy and reliable option for vertically mounting four floodlight fixtures. This adaptable bracket is designed for mounting on wood, steel, and concrete poles, guaranteeing a dependable and secure installation for all your lighting requirements. Tailored to fit 2-3/8 inch O.D. tenons or light pole tops precisely, it is commonly used in outdoor lighting setups such as parking lot lights, floodlights, and shoebox fixtures.
