

120-Degree Triple Bullhorn Mounting Bracket Tenon Adapter

PRODUCT DESCRIPTION

The 120-Degree Triple Bullhorn Tenon is a versatile lighting solution with three arms, accommodating any light fixture with a standard 2-3/8 inch slip fitter. This bullhorn light pole bracket is designed for easy installation and can replace existing post top mounts. The bracket is designed to mount atop wood, steel, and concrete poles, making it suitable for a variety of outdoor lighting applications such as shoebox lights, parking lot lights, floodlights, and other outdoor fixtures.
